**LIVE SOUND ENGINEER**

**Matt Kettle**

Kettle has mixed for White Stripes, The Flaming Lips and Arctic Monkeys

**Dave Swallow**

Swallow has worked with La Roux, Amy Winehouse and Seasick Steve.

**Chris Madden**

Madden is the live sound engineer for Sade and Pink.

**Brandon Knights**

Knights has worked with dub reggae legends including Lee 'Scratch' Perry, in addition to current mixing duties with Soul II Soul.

**Marc Carolan**

Carolan has been Muse's FOH engineer for almost a decade.

**INSTALLATION INNOVATION**

**Schauburg Kino and Theatre, Germany – Alcons Audio**

Schauburg Kino & Theater in Karlsruhe has undergone a programme of technical modernisation that's seen the integration of the latest formats running alongside 70mm screenings Alcons' CR4 cinema front systems.

**Doctor Who Experience - Sarner**

Sarner combined its creativity, AV expertise and show experience to develop and create an immersive attraction where visitors become a part of the TV show for themselves.

**Space Ibiza – Funktion One**

The new system in the Discoteque room at Space is a custom design conceived and installed as a joint project between Pro Audio Ibiza and Funktion One.

**Eurovision Song Contest - Riedel**

German communication specialist Riedel provided the video, visual and communications signal distribution for the entirety of this year's Eurovision Song Contest.

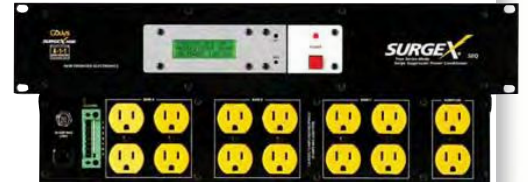

**Pulse London – Void Acoustics**

Pulse London is a new 'megaclub' built under Blackfriars Bridge in Southwark, London, which features one of the biggest Void Acoustics systems in the world.

**NEW INSTALLATION PRODUCT**

**SurgeX SEQ**

The SEQ provides surge protection, power conditioning and sequencing for audio, video, broadcast and computer equipment.

**D&B Audiotechnik White Range**

The German company's White Range of integration loudspeakers is made up of the xS-Series and the xA-Series.

**Riedel Medionet Compact**

Riedel's Medionet provides connectivity for up to 12 3G/HD/SD-SDI signals, four AES ports, two Madi interfaces as well as four analogue audio I/Os.

**Powersoft Ottocanali 1204 Amplifier**

Designed for installation applications, the Ottocanali 1204 provides eight channels and includes optional plug-in output transformers.

**Work Pro CA Series**

The Work Pro CA series comprises a range of ceiling speakers, active and passive wall mount loudspeakers, subwoofers, power amplifiers and mixer amplifiers.

**AFTER SALES SUPPORT**

**DiGiCo**

Based just outside of London, DiGiCo is dedicated to providing unparalleled technical services, sales and support for its entire product line.

**SSE Sales**

SSE Audio Group provides professional audio services including PA hire, pro audio sales and audio installations.

**Shure Distribution UK**

Shure Distribution UK strives to provide the best after sales support by providing numerous training days, Channel 38/DSO seminars, and has recently hosted the Audio Insight Events in several UK locations.

**Audio-Technica UK**

Located in Leeds, Audio-Technica UK provides award-winning technical support, sales and after sales services.

**Sennheiser UK**

Sennheiser UK has worked tirelessly at concerts and festivals around Britain, providing complementary support and backup of all descriptions for Sennheiser products, customers and artists.
