

Dimension 360

Product Description:

A startling visual effect featuring 360 degrees of action on a dome screen that opens the world from horizon to horizon. Our 70mm, single projector system is the technical marvel that makes it happen.

Features and Benefits:

70mm 8 Perf Wide
Film Format

Superior picture resolution and sharpness. Image 3 1/2 times larger than 35mm.

High Intensity Xenon Light
Source

Colors are crisper and picture is brighter.

Computer designed Spherical
Lens with 175° Projection
Angle

Projects sharp defined image across the entire screen above the heads of the audience thus eliminating annoying shadows and glare.

Eight (8) Discrete Channels
of Sound

Distinctive total surround sound provides infinite number of sound effects.

Integrated Projection, Sound
and Film Rewind System

Eliminates need for projection booth and rewind table.

Film Available:

"Heads Up"

The world overhead suddenly opens up and comes to life amid shrieks, squeals of joy, laughter, involuntary ducks of the head, and wonder at the spectacle being shown on the vast hemispherically shaped screen.

Thunder rumbling in the distance erupts into jagged bolts of lightning.

Audiences delight at the color and pageantry of a circus parade, spectacular acrobatic balancing, juggling and the stunning artist turning and swinging on the trapeze. Crack! Wide eyed excitement awaits inside the big cats' cage. Watch out! That huge elephant is going to crush you.

Plunge down a hill of two steel ribbons into a twisting double loop coaster.

Las Vegas' famed night lights dazzle overhead. Show girls high step their way through a raucous display of mud wrestling.

A genuine Mississippi River Boat passes under looming iron bridges.

Oposing football teams collide as the band marches all around.

Screech - Crash ! Oh no ! That crane is dropping that wrecked car right on top of you !

Lost in a dark cave. Damp moist air cools the fear. Nearly touching a nest of spiders causes a scream that excites a swarm of bats. Attempting escape sets off an avalanche of rocks. After a near-miss, there is no escape from the fearsome stalagmonster.

Lead Time:

Ten (10) to Twelve (12) weeks from confirmed contract order date.
